I'm literally touched, moved and entranced by the comely grace of this game! Unforgettable and unexpected experience where gameplay is at the service of astonishing aesthetic beauty.

Rich and immersive sensorial experience, a sort of visual and musical interactive poetry coming with magnificent graphic style and outstanding aesthetics. Another screenshots as paintings generator! While playing you can feel grace, lightness and even a bit of pleasant sadness. I liked so much pushing the B-key and watching the girl trying to sing with no result, so graceful and sad at the same time! :-) My eyes could not resist the blinding beauty of the ending wrapped in an explosion of colors and a vortex of emotions and tears of joy flowed. One of the best game of 2018. Thank you Nomada Studio!

[Sono letteralmente commosso ed estasiato dalla leggiadra grazia di questo gioco. Indimenticabile ed inaspettata esperienza dove il gameplay \u00e8 al servizio di una sorprendente bellezza estetica. Ricca ed immersiva esperienza sensoriale, una sorta di poesia interattiva visiva e musicale forte di un magnificente stile grafico. Un altro generatore di screenshot come fossero quadri! Durante il gioco si ricevono sensazioni di grazia e leggerezza ma anche un po' di piacevole tristezza! Ho adorato premere il tasto B e guardare la ragazza che tenta di cantare senza risultato, cos\u00ec grazioso e triste allo stesso tempo! :-\) I miei occhi non hanno resistito all'accecante bellezza del finale avvolto in un'esplosione di colori ed un vortice di emozioni e lacrime di gioia sono sgorgate! Uno dei migliori giochi del 2018. Grazie Nomada Studio!](#)

needs update with the following:

[1: Electrification](#)

[2: GWR HST, Class 387, Class 165V1, 166, 153, 150V0, 150V1, 150V2, 150V9, 08, 800, 802, 57V6, Mark 3 Coaches, 158, Heathrow Connect Class 360 and Heathrow Express Class 332](#)

[3: Branch Lines to Heathrow Airport, West Ealing, Windsor & Eton Central, Marlow, Henley-on-Thames and extension to Cardiff Central, Penzance, Cheltenham Spa & the Reading-Taunton Line. If you're from the UK, are politically aware, and have a conscience and a sense of humour, you'll appreciate this game!. After waiting and watching the progress on twitter I'm happy to finally have had a moment to sit down and enjoy this game. It's great! No troubles using my PS4 gamepad over bluetooth either! The mechanics are straight forward and it's just the right kind of replayable for me. I was already a fan of the Orangepixel style and it's amazing how it came together so well in a turn-based game format. Still juicy, love the action, love the ability to plan out your attack on a room.](#)

[The balance of ammo and health drops feel pretty good to me so far \(only played a little bit at the time of writing so who knows what the future holds\): the levels and setting are just a nice change of pace over the typical high-fantasy of similar titles. I only bring that up to say that I appreciate variety, and not to suggest one setting is superior to another.](#)

[It doesn't appear that you're going to find the seriously in-depth story-telling and lore like you might find in games like Caves of Qud \(or insert another previously released rogue-ish-turn-based-action-adventure game that you might love\): for me this is perfect. They can't *all* be about huge tomes of lore and storytelling.](#)

[Sometimes you just want to get out there, rock that moon base, and tell your own story. Space Grunts delivers!. Tsygan is a very nice character.](#)

A very fun game.

Characteristic Art Zeiva, Very beautiful and pleasant.

very funny story, it conquered you, and even if the game does not have a serious mystery, you begin to create various, just for curiosity.

I had already played the demo and was waiting out in the steam so that I could get. I have not made any final so maybe when I do I will add something.

I also bought this game to support Zeiva, since their game has a great story and I would like it to continue doing good games as well.

Potugu\u00eas

Um jogo muito divertido.

Arte Caracteristica da Zeiva, Muito bonita e agradavel.

Hist\u00f3ria muito engra\u00e7ada, ela conquistava voc\u00ea e mesmo que o jogo n\u00e3o tenha um misterio serio, voc\u00ea come\u00e7a a criar varios, apenas por sua curiosidade.

Eu ja havia jogado a Demo e estava esperando sair no steam para que eu pudesse adquirir. Eu ainda n\u00e3o fiz nenhum final, ent\u00e3o talvez quando eu fizer eu venha acrescentar algo.

Tamb\u00e9m comprei este jogo para apoiar a Zeiva, ja que seus jogos tem uma otima hist\u00f3ria e eu gostaria que ela continuasse fazendo bons jogos assim.. Dead multiplayer, no co-op and runs badly on modern machines.. 0/10 because of very poor hitboxes you will have a lot of trouble doing a certain quest (Spikey Rivers) unless you chose a specific skill build from the beginning. The concept itself is very good. A management game with lots of dark humor, a good presentation, and a nice visual style. However the game is so plagued with bugs that you spend most of your time finding a way around the bugs, instead of actually having fun.

Still, you put up with the bugs and play. Then suddenly you have to start over again because your saved game became corrupted (due to yet another bug) and you lost all your progress. There goes 10, 20, XX, hours of your time down the drain.

Updates are very few and far between. And there is no roadmap or even an updated change log to at least learn what has been fixed in the beta branch (yes, this "fully released" game still has a beta branch), or when will the changes in beta be applied to the main branch. So its very hard to have patience and hope that the game will be fixed and you will be able to enjoy it.

The bottomline: Its a damn shame. This game could be awesome! Instead its just a nearly unplayable, poorly updated bugfest for wich there is no date in sight of when (or even if) it will be fixed and made playable. Certainly NOT worth the asking price. Dont waste your money.. So addictive. Very much like Rogue Legacy, though the upgrade system is a little different. Very replayable, very fun, hacky-slashy goodness in short levels with a boss on each floor. Great fun!
